About Childhood Play School

Childhood Play School is a growing chain of preschool started in the year 2009 with the aim of providing quality school education to the children at an affordable fee structure.

Childhood Play School ensures that children learn as effectively and efficiently as possible in a caring and friendly environment where equal consideration is given to social, physical, emotional, aesthetic-creative and intellectual development.

Our aim is to guide all our children on their individual journey of learning and discovery and give them the very best opportunity.

Our Philosophy

We believe that:

- Each child is a unique individual and they develop at different rates.
- Children should learn in a safe, child-centered environment through exploration and a variety of open ended activities.
- The learning environment and educational process should recognise different learning styles, abilities and interests.
- The Kindergarten program should focus on the social, physical, emotional, aesthetic-creative and intellectual development of the child.
- The early establishment of a positive self-concept and a positive view of school provides a foundation for later achievement.

Our Goals

- To provide developmentally appropriate program, which gives each child the time they need to grow, emotionally, physically and intellectually.
- To provide child-centered environment that encourages competence and self esteem.
- To establish initial interest in and lay the foundation for the development of skills in reading, writing and mathematics.
- To develop independent work habits and problem solving techniques.
- To foster curiosity and enthusiasm for learning.
- To create an environment where children, teachers, and parents work together in a cooperative spirit and the frame of mind to consistently, encourage each child's maximum development.

Our Teachers

Our teachers are specially trained in order to facilitate child's learning foundation. Teachers and care givers at our play schools are dedicated, experienced and motivated to provide all-round development to the child. At Childhood, a lot of care is taken to ensure that we have qualified and well trained teachers to groom your precious little child.
